

## Contents to Volume 37

### No. 1,2

Issue contents	1
Young MOD Investigator Award	2
<b>S. Becker, J. Casanova and L. Grabel</b> Localization of endoderm-specific mRNAs in differentiating F9 embryoid bodies	3
<b>M. Maden, C. Horton, A. Graham, L. Leonard, J. Pizzey, G. Siegenthaler, A. Lumsden and U. Eriksson</b> Domains of cellular retinoic acid-binding protein I (CRABP I) expression in the hindbrain and neural crest of the mouse embryo	13
<b>H. Sasaki, M. Yamamoto and A. Kuroiwa</b> Cell type dependent transcription regulation by chick homeodomain proteins	25
<b>M. Mlodzik, Y. Hiromi, C.S. Goodman and G.M. Rubin</b> The presumptive R7 cell of the developing <i>Drosophila</i> eye receives positional information independent of <i>sevenless</i> , <i>boss</i> and <i>sina</i>	37
<b>L.A. Abbott and J.E. Natzle</b> Epithelial polarity and cell separation in the neoplastic l(1)dlg-1 mutant of <i>Drosophila</i>	43
<b>T. Bouwmeester, S. Güehmann, T. El-Baradi, F. Kalkbrenner, I. Van Wijk, K. Moelling and T. Pieler</b> Molecular cloning, expression and in vitro functional characterization of Myb-related proteins in <i>Xenopus</i>	57
<b>O. Ait-Ahmed, B. Bellon, M. Capri, C. Joblet and M. Thomas-Delaage</b> The <i>yemanuclein-α</i> : a new <i>Drosophila</i> DNA binding protein specific for the oocyte nucleus	69
<b>E. Thüroff, S. Stöven and H. Kress</b> <i>Drosophila</i> salivary glands exhibit a regional reprogramming of gene expression during the third larval instar	81
<b>J. Piette, M. Huchet, A. Duclert, A. Fujisawa-Sehara and J.-P. Changeux</b> Localization of mRNAs coding for CMD1. Myogenin and the $\alpha$ -subunit of the acetylcholine receptor during skeletal muscle development in the chicken	95
Announcement	107

### No. 3

Issue contents	109
Young MOD Investigator Award	110
<b>N.A. Wall, C.M. Jones, B.L.M. Hogan and C.V.E. Wright</b> Expression and modification of Hox 2.1 protein in mouse embryos	111
<b>J.L. Crosby, D.S. Varnum, L.L. Washburn and J.H. Nadeau</b> Disorganization is a completely dominant gain-of-function mouse mutation causing sporadic developmental defects	121
<b>D. Hodges and S.I. Bernstein</b> Suboptimal 5' and 3' splice sites regulate alternative splicing of <i>Drosophila melanogaster</i> myosin heavy chain transcripts in vitro	127
<b>R.P. Harvey</b> MyoD protein expression in <i>Xenopus</i> embryos closely follows a mesoderm induction-dependent amplification of <i>MyoD</i> transcription and is synchronous across the future somite axis	141
<b>R.L. Peterson, D.F. Jacobs and A. Awgulewitsch</b> Hox-3.6: isolation and characterization of a new murine homeobox gene located in the 5' region of the Hox-3 cluster	151
<b>L.N. Ruben, M.A. Scheinman, R.O. Johnson, S. Shiigi, R.H. Clothier and M. Balls</b> Impaired T cell functions during amphibian metamorphosis: IL-2 receptor expression and endogenous ligand production	167
<b>M.A. Harkey, H.R. Whiteley and A.H. Whiteley</b> Differential expression of the msp130 gene among skeletal lineage cells in the sea urchin embryo: a three dimensional in situ hybridization analysis	173
Corrigendum	185
Announcements	187
